Introducing M-Series X-Type: M29x M36x M42x

We started with the award-winning quality, distinctive good looks, and innovative engineering that goes into every M-Series yacht we build. Then we pushed the design envelope by adding go-fast features to ensure maximum sailing performance in all conditions. The new X-Type package now available on new M-Series yachts is going to blow your hair back!

INTRODUCING M-SERIES | X-TYPE | PERFORMANCE PACKAGE

If you've ever longed to experience the combination of power, sophistication and luxury of owning and driving an AMG Mercedes-Benz, or S-Class Audi, or M-Series BMW, or even a V-Spec Rolls Royce, the new X-Type package now available on new Morris M-Series yachts is going to blow your hair back.

THE CONCEPT IS SIMPLE | NEW GO-FAST FEATURES

We've started with the award-winning quality, distinctive good looks, and innovative engineering that goes into every M-Series model we build, then we partnered with Sparkman & Stephens to push the design envelope to ensure maximum sailing performance in all conditions.

We've added go-fast features like a tall carbon fiber rig from Hall Spars, a deep, high-aspect ratio fin keel, high-tech 3Di sails from North Sails, a carbon fiber wheel, and greasy-fast, super-smooth bottom paint.

And just as importantly, we've taken away speed-stealing weight by using resin-infusion on the cored hull and covering the deck with simple non-skid rather than teak.

But what makes the M-Series X-Type so special is much more than just a long list of options. It's the smooth, confident feeling that comes from the helm as the boat powers up hard on the breeze. Or the childlike glee that comes when you effortlessly unfurl the A-sail and start screaming downwind.

Or better still, when you look back at your M-Series X-Type after an invigorating day on the water and realize your well-mannered sport boat has the soul of a Morris Yacht and makes life just a little bit sweeter.

At the end of the day, you're exactly where you
want to be want to be.
